

The Cablehead Termination Sub delivers an alternative configuration of the INFOCOIL BHA system, allowing a swift change to conventional coiled tubing operations without removing the Cablehead or TEC Cutter. When installed on the Cablehead, this sub seals the electrical port and adapts to a standard thread for maximum flexibility.

Features	Benefits
Electrical port seal	Delivers flexibility in applications
Ball pass through capability	Provides rapid changeover of BHA types
Standard lower thread	Installs easily and simply

Specifications		
	Imperial	Metric
Outside Diameter (max)	2.125 inch	54 mm
Inside Diameter (min)	0.5 inch	12.7 mm
Length	3.2 inch	0.1 m
Lower Thread	1.5" AMMT	1.5" AMMT
Pressure (max)	12,000 psi	83 MPa
Tension (max)	40,000 lbf	18,000 daN
Compression (max)	11,400 lbf	5070 daN
Torque (max)	400 ft.lb	540 N.m
Temperature (max)	300° F	150° C

# INFOCOIL System 2-1/8" Bottom Hole Assemblies
